BOOT FEATURES

Microfibre Upper
Black microfibre upper has a high abrasion & tear resistance. Easy to clean & resistant to acids & oils.

Aegis Odour Control Lining
Controls the bacteria and fungi that causes odours, stains and product deterioration within the shoe.

Ortholite Insoles
Offers a combination of performance and comfort benefits unmatched by any insole manufacturer.

Slip Resistant Sole
Unique tread pattern designed and tested to significantly exceed the EN ISO 13287:2012 SRC safety standard.

Super Lightweight
Ultra light in weight to help reduce fatigue and muscle soreness.

Heat Resistant Rubber Outsole
Durable outsole can withstand extremely high temperatures of up to 300°C.

Non Safety
Shoe without a safety toe cap, and is a great option for when not restricted to wearing safety footwear.
